

Meeting room video collaboration through a familiar Microsoft Lync user experience

LifeSize® LRS1000™ for Microsoft® Lync®

The LifeSize LRS1000 for Microsoft Lync is a meeting room collaboration system codeveloped with Microsoft for Lync 2013. It extends the Microsoft Lync experience to the meeting room, encouraging genuine, face-to-face interactions through a native Microsoft Lync interface.

The familiar Microsoft Lync interface makes the move from your desk to the meeting room as simple as possible. Connecting with your customers, partners and teams over Microsoft Lync will be easier than ever, from wherever you are. You can enjoy unprecedented collaboration capabilities through this LifeSize LRS1000 for Microsoft Lync system. Single or dual touch displays are perfect for digital whiteboarding. And each system comes equipped with an HD camera, stereo audio, micpod and a touch-screen control console that showcases the company directory, calendar and presence.

Intuitive for Microsoft Lync Users

The LifeSize LRS1000 for Microsoft Lync provides a native Microsoft Lync user experience designed for in-meeting-room use. No training is required, since the user experience is very familiar and intuitive for Lync desktop or mobile device users.

Access Microsoft Lync Tools

All the Microsoft Lync tools that you've come to enjoy, like whiteboarding, sharing documents, creating a meeting agenda and secure conferencing, are accessible in any meeting or conference room via your LifeSize LRS1000 system.

Connects with Microsoft Lync

The LifeSize LRS1000 system connects your meeting room with other Microsoft Lync devices, ensuring that your collaboration sessions can include Microsoft Lync users on desktops, laptops and mobile devices.

Extend Collaboration with LifeSize® UVC Multipoint™

If collaboration is required between users on Lync devices and standards-based video systems like the LifeSize® Icon™ Series or LifeSize® 220™ Series, then pair your new LifeSize LRS1000 with the LifeSize UVC Multipoint Enterprise Edition. This Enterprise Edition will enable your LifeSize LRS 1000 system to connect with any standards-based room system or mobile client. Collaborate over video with up to 60 callers in a conference, with up to 49 people appearing on screen at the same time.
